PROFILE

As an aspiring Front-End Developer in the initial stages of my career, my proficiency in HTML, CSS, and JavaScript, and my dedication to creating exceptional user experiences to contribute effectively to a dynamic and innovative team. I am eager to further develop my skills, tackle challenging projects, and make a meaningful impact while continually enhancing my knowledge in the ever-evolving field of front-end development."

PROJECTS

I made some project in my front-end development journey.

Case Converter : —

Whether you need to switch from uppercase to lowercase, capitalize sentences, or format text in title case, our tool simplifies the process.

Live Demo

Shuffle Text Lines : —

Shuffle Text Lines Tool is a unique creative tool that takes a set of text lines as input and outputs them after shuffling in random order.

Live Demo

Netflix Front Page Clone : —

My clone brings the Netflix experience to your device with a familiar interface.

Live Demo

Clock with React JS : —

With its silent movement and impeccable craftsmanship, this clock not only keeps perfect time but also adds a touch of sophistication to any room.

Live Demo

Codewithharry CLone : —

Explore a wide range of coding languages, interactive tutorials, and real-time coding practice.

Live Demo
